September 19, 2026

Dear Valued Customer,

Effective October 1, 2026, the following rate changes will take effect on your water and/or sanitation bill; however, please note that you will not receive the bill **for October's usage** until November 19, 2026, due on December 10, 2026.

WATER –

Usage (in gallons)	*Inside City Limits*	*Outside City Limits*
0 – 2,000	$21.00 minimum	$25.00 minimum
2,001 – 5,000	+$4.00 per thousand gallons	+$4.50 per thousand gallons
5,001 – 8,000	+$5.00 per thousand gallons	+$5.50 per thousand gallons
8,001 – 11,000	+$6.00 per thousand gallons	+$6.50 per thousand gallons
11,001 & up	+$7.00 per thousand gallons	+$7.50 per thousand gallons

SANITATION – Due to an increase of $1.00 per month per can imposed by the city's contracted garbage service in July of this year, monthly sanitation rates will increase by $1.00 per month per can for both inside and outside city limits, making the rate **$30.00 for inside city limits** and **$32.00 for outside city limits**.

WATER SYSTEM MAINTENANCE – Lastly, the monthly system maintenance fee that is used strictly to maintain the city's water utility infrastructure will increase from $5.00 to **$7.00**.

The Weaver City Council has worked diligently to keep these increases to a minimum while still providing its citizens with safe, clean, and reliable water. However, price increases are unfortunate but inevitable due to the rising costs of treating and testing water, repairing and replacing aging water pipes, purchasing and maintaining equipment, making street repairs, and providing garbage services.

We know all rate increases are difficult. We, as your mayor and city council, work hard to make the most of the city's budget, and we thank you for your understanding as we continue to serve you, the citizens of the City of Weaver.

Respectfully,

Jeffrey A. Clendenning
